

MOHAMMED MAZIN KHAN

+91-7829562004 | Bengaluru, India | [Linkedin](#) | [GitHub](#)

PROFILE

Final-year Computer Science engineer with production experience in machine learning, full-stack development, and business automation using Google Apps Script and Sheets. Built an XGBoost dropout prediction system (92.78% accuracy), a real-time vendor sourcing platform, and a full automation suite at Vedantu. Secured Top 2 among 6,000+ participants at the World's Largest Tech Expo.

EDUCATION

B.Tech - Computer Science and Engineering

2022 - 2026

[Presidency University, Bengaluru](#) | CGPA: 7.18 / 10.0

EXPERIENCE

Marketing Analyst - Growth MARCOM Team

Feb 2026 - Present

[Vedantu, Bengaluru](#)

- Automated EMI report generation using Google Apps Script, reducing manual reporting from hours to minutes
- Built ERP marketing spend cost reports with real-time budget vs. actuals tracking across campaigns and departments
- Developed on-ground sales travel tracker: mobile-friendly website with Google Sheets as backend for field rep activity logging

Data Operations Intern

Jun 2025 - Aug 2025

[Vedantu, Bengaluru](#)

- Processed educational datasets and optimized reporting pipelines to support data-driven business decisions

PROJECTS

Automated EMI Report Generator

Feb 2026 - Present

[Google Apps Script](#) | [Google Sheets](#) | [JavaScript](#)

- Engineered a fully automated EMI report pipeline using Apps Script that processes raw financial data and generates structured, formatted reports automatically, eliminating manual effort and reducing turnaround time significantly

ERP Marketing Spend Cost Reports

Feb 2026 - Present

[Google Apps Script](#) | [Google Sheets](#) | [JavaScript](#)

- Built dynamic ERP-style spend tracking dashboards with automated data aggregation, budget vs. actuals comparison, and department-wise cost breakdowns using Apps Script triggers and Sheets formulas

On-Ground Sales Travel Tracker

Feb 2026 - Present

[Google Apps Script](#) | [HTML](#) | [CSS](#) | [JavaScript](#)

- Developed a mobile-optimized web app for field sales reps to log travel and daily activities in real time; used Google Sheets as the backend for storage, automated roll-ups, and management reporting

DropoutIQ - Intelligent Student Dropout Prediction System

Jan 2026 - May 2026

[Python](#) | [XGBoost](#) | [FastAPI](#) | [Next.js](#) | [scikit-learn](#) | [SMOTE](#)

- End-to-end ML pipeline on 4,424 records x 33 features; XGBoost achieved 92.78% CV accuracy outperforming 5 ML baselines and 4 deep learning architectures across 20+ experiments
- Engineered 4 ratio-based features contributing 38.2% of feature importance; SMOTE achieved 95% dropout precision and 96% graduate recall; deployed FastAPI backend with Next.js admin dashboard

Vendor Buddy - Smart Raw Material Sourcing Platform

Jul 2025

[Spring Boot](#) | [React](#) | [MongoDB](#) | [Docker](#)

- Led 5-member team to ship end-to-end vendor registration, supplier discovery, and order management with real-time inventory and dynamic pricing

SKILLS

Languages: Python, Java, JavaScript, C, HTML5, CSS3

Web and Backend: React.js, Next.js, Spring Boot, FastAPI, REST APIs

ML and Data: XGBoost, scikit-learn, SMOTE, pandas, NumPy, MySQL, MongoDB

Automation: Google Apps Script, Google Sheets, Docker, Git, GitHub

CERTIFICATIONS

Urban Informatics (Elite) - NPTEL, IIT Kharagpur | Score: 63% | 4 Credits | Jan-Apr 2026 |

Geographic Information Systems (Elite) - NPTEL, IIT Roorkee | Score: 61% | 4 Credits | Jan-Apr 2026 |

Certificate of Excellence - Tutedude Web Dev Hackathon, Jul 2025 |

Responsive Web Design - freeCodeCamp (300 hrs), Apr 2025 |

Data Visualization - Infosys Springboard, Apr 2025 |
